Size: 1 folder (12 pages)

Scope & Content

This collection contains a descendants chart beginning with the birth of Peter Hanger in 1729 through six generations of the family. The chart does not include any dates. A one-page narrative gives a brief history of the family in Pennsylvania and their arrival in Augusta County Virginia about 1750. Also listed are other organizations and individuals who received a copy of this document.

Historical/Biographical Note

Peter Hanger settled on a 600-acre farm known as Spring Farm. Present day Gypsy Hill Park occupies the area. The Hanger house was located where the Pavilion now stands. The spring on the farm is now the source of city water for Staunton.
