

Augusta County Historical Society
Acc #821
Manz Collection of Genealogical Materials
Date of Collection

Size: One box, 16 folders

Scope & Content: Photocopies of wills, marriage records, and genealogical notes related to the surnames of Hodge, Cooke, Thresher, Johnson, Jones, Lewis, and Luck. Some of the early material relates to the Hodge family. Materials are primarily from Virginia and Kentucky. Several Hodge documents are from Augusta County Virginia.

Historical/Biographical Note: Materials seem to start with information about the Hodge family in Augusta County, but materials from other Virginia counties are included. Later materials seem to focus on Kentucky. No comprehensive statement exists in the collection that would indicate the relationships between the various objects. The collection may have been compiled as a part of an effort to secure DAR membership but that is uncertain.

Organization/Arrangement The collection is stored in Acc Box number 821 and is subdivided into 16 folders in the order that the material was received from the donor.
